

Hello,

We are pleased to announce that the Co-operative Wildlife Management Survey app is now available for download on your iPhone and Android devices from GooglePlay and the Apple app store. You can locate the app by searching for “Saskatchewan Wildlife Survey” or “SK CWMS”. Once you download the SK CWMS App on GooglePlay or the Apple store, call 1-800-567-4224 toll-free, for your participant number and activation code.

The key white-tailed deer and mule deer observation period of the Co-operative Wildlife Management Survey will run from September 1 to November 30. Any observations you enter before November 30 will be used to inform 2018 management recommendations for these species. Other key observation periods for game species are:

Moose: September 1 to December 31

Elk: September 1 to February 28

Sharp-tailed Grouse: March 1- July 15

Wild Turkey: December 1 to March 1

Thank you for your participation in this important survey. If you know of someone who would like to join the survey, have them call 1-800-567-4224 to sign up and receive their participant number and app access code.

Have an excellent fall!
